

And yet what has been this administration's position in response to the biggest oil find in modern history in North Dakota, Slawson Exploration Co. of Wichita, Kansas, was charged under the Migratory Bird Treaty Act for killing 12 birds that—these aren't endangered species, they're migratory birds, like mallard ducks—after landing, allegedly landing in oil waste pits in western North Dakota.

So our Justice Department, which abandoned prosecution of funding of terrorism around the world against the United States and our friend Israel, it has abandoned that responsibility, they are purging their training records of any reference to radical Islam. They are refusing to go after the people that want to bring down this country. They're appointing people on the Homeland Security Advisory Council who have glowingly talked about Ayatollah Khomeini, or the Holy Land Foundation, that funneled money to terrorism, they're putting people like that on the Homeland Security Advisory Council, giving them secret clearance and letting them peruse our classified documents. That's what this administration has been doing.

But these energy resources could make us energy independent, and what are they doing? They're putting their foot on the throat of anybody that tries to produce them to the point that they will ignore the tens of thousands of birds that have been killed by windmills and go after the biggest oil find in modern history in America and charge them criminally because maybe there were 12 ducks that got into some of their oil.

It's incredible what this administration is doing—they think to help America. But, clearly, just as clearly in retrospect as President Carter hurt this country, hurt those who love liberty by recognizing the Ayatollah Khomeini as a man of peace, proudly proclaiming his coming back to Iran, and thousands and thousands and thousands of people have died because such a man was encouraged to come to power.

Just like this administration did in Egypt, like this administration has done in Libya, without really knowing who we were helping, and now the Muslim Brotherhood that is devout in pursuing an international caliphate that would put the lovers of liberty in this country under the shackles of following sharia law, it's a disgrace.

There is so much damage that this administration has been doing; the Justice Department going after people because they believe there is a God.

I will just close with what Ben Franklin said in the Constitutional Convention, 1787, toward the end of June:

How has it happened that we have not once thought of humbly applying to the Father of lights to illuminate our understanding? In the beginning of the contest with Great Britain when we were sensible of danger, we had daily prayer in this room. Our prayers, sir, were heard and they were graciously answered.

He ultimately said:

If a sparrow cannot fall to the ground without His notice, is it probable that an empire can rise without His aid? We've been assured, sir, in the sacred writings that "unless the Lord build the house, they labor in vain that build it." I firmly believe this.

He also said:

I firmly believe that without his concurring aid, we shall succeed in our political building no better than the builders of Babel.

He was right. We've had over 200 years of blessing as a result. It's time to acknowledge the result of our blessing and the source of our blessings.

With that, I yield back the balance of my time.
